

name: test1

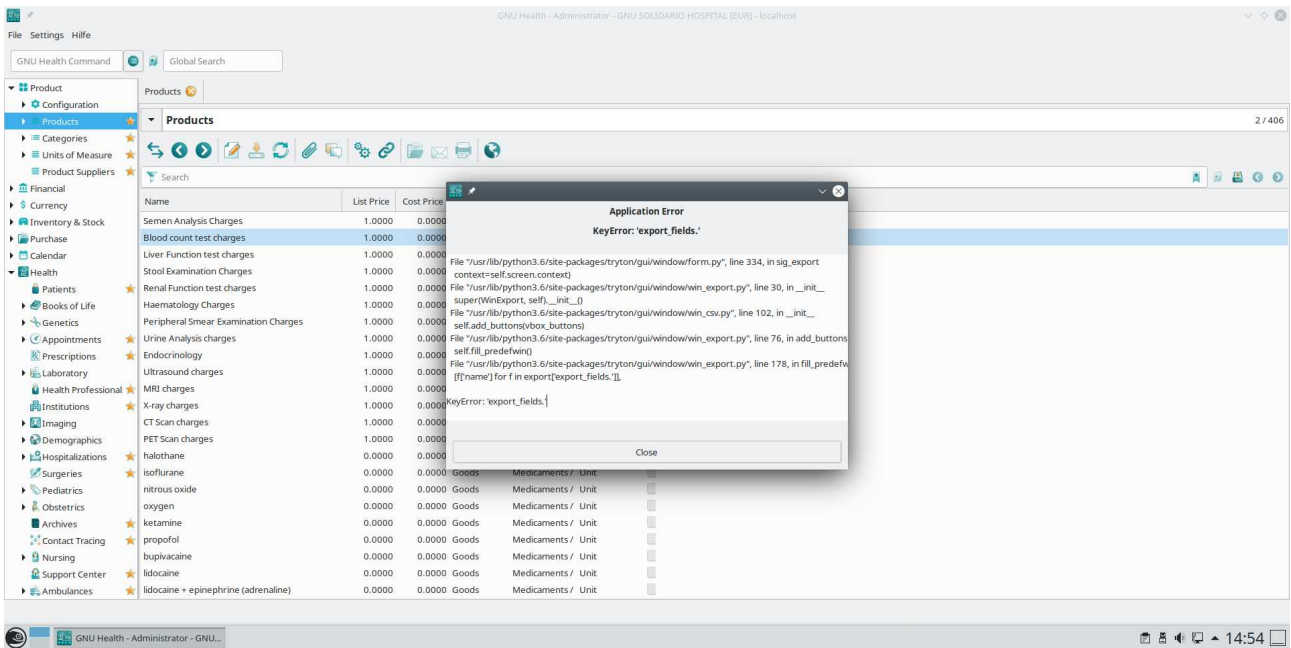

OK

got a Calc file with only one row and the field names

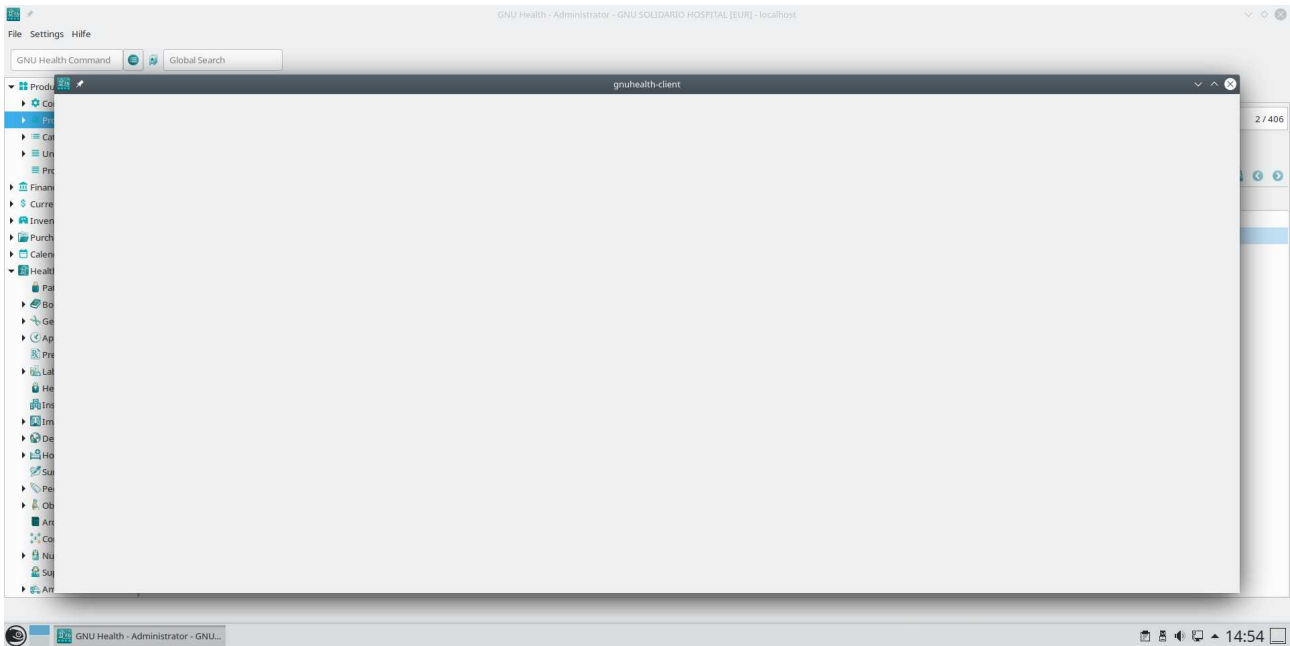

when I make a new export an error occurs:

```

File "/usr/lib/python3.6/site-packages/tryton/gui/window/form.py", line 334,
in sig_export
context=self.screen.context)
File "/usr/lib/python3.6/site-packages/tryton/gui/window/win_export.py", line
30, in __init__
super(WinExport, self).__init__()
File "/usr/lib/python3.6/site-packages/tryton/gui/window/win_csv.py", line
102, in __init__
self.add_buttons(vbox_buttons)
File "/usr/lib/python3.6/site-packages/tryton/gui/window/win_export.py", line
76, in add_buttons
self.fill_predefwin()

```

```
File "/usr/lib/python3.6/site-packages/tryton/gui/window/win_export.py", line
178, in fill_predefwin
    [f['name'] for f in export['export_fields.']],
KeyError: 'export_fields.'
```

when I click on Close error, then a blank screen of the client occurs

also when I close the client and open it again the error occurs again

I use Oracle Virtual machine with openSUSE Leap 15.3 and GNUHealth 3.8. with demo-database
